

TEA WITH ROSA

Ingredients:

1 heaping
teaspoon black tea
leaves

5-6 whole cloves

2 cinnamon sticks
(or more)

Several slices of
orange

3 cups of hot
water (almost
boiling)

Tie the spices and orange slices, along with the loose tea, in a section of cheesecloth. Put in the bottom of the teapot. Pour almost boiling water over the top until at least 3 cups are in the pot. Allow to steep for at least 5 minutes before you try the first cup.

Gusieppi and Angel love this recipe in the summer, served over ice. If you are making iced tea, allow the tea to steep at least 15 minutes so that it does not become diluted when you add the ice.
